25/06/2024 – 09/09/2024
Matangi Event

- Developed a full-stack **Event Creator web application** allowing users to register for events, purchase tickets, and receive them via email.
- Integrated a secure **payment gateway** for seamless transaction processing, ensuring reliable and efficient payments.
- Automated ticket generation with **unique QR codes** upon successful payment and delivered them to users via email.
- Utilise technologies such as **React, Node.js**, and **AWS SES** to build a **scalable** and responsive application.
- Ensured **data security** and **PCI-DSS compliance**, encrypting sensitive payment information to protect user privacy.

01/01/2024 – 09/02/2024
E-Commerce Web Development

- Developed an **eCommerce website** where users can browse **categories** and products, apply **filters**, and add items to their **shopping cart**.
- Implemented a secure **payment gateway** for users to complete transactions and **place orders** seamlessly.

- Designed the **client-side UI** to allow users to filter products by **category, price, brand**, and other attributes for a customized shopping experience.
- Built an **admin panel** enabling administrators to manage **categories, products, and brands**, and add or update product listings efficiently.
- Integrated **order management features** for both users and admin, ensuring smooth **order tracking** and processing within the platform.

25/09/2023 – 31/12/2023
Qrcode Scanner and Signature Pad

- Developed a **QR code scanner** using **JavaScript** and **HTML5 Canvas** that scans QR codes and displays the decoded output in real-time.
- Implemented a **signature pad** with **HTML5 Canvas** and **JavaScript**, allowing users to sign digitally and save their signatures as an **image file** on their devices.
- Utilized **CSS** for responsive design and ensured compatibility across browsers, providing a smooth and interactive **user experience** for both QR code scanning and digital signatures.
